lations with Mexico had improved suffiby to justify a more confident position to stock market. With eagerness to anste a solution of the Mexican problem, diators bought stocks on a scale that uced a broad and active market. Ogress upward was uninterrupted from opening of the market to the close, and trial gains were scored in all departits. Standard dividend of the paying see led in the advance, with the Harristocks and the coppers conspicuous, price of standard warrants in London and the highest figure of several months, some domestic producers were said to be ing out for 16 cents. Athern Pacific did not weaken with the arance of its July statement showing a case in net carnings of \$785,009. Readway will in the frent, despite rumorn of, we government suit. Reports from the hwest told of further damage in the in belt, thdrawal of \$1,000,000 gold for shipment

Stocks Close Strong After Exciting Session of Stock Exchange.

BY BROADAN WALL. New York, August 28.—Stocks closed strong to-day after an exciting session, in which shorts attempted to cover commit-

Traders then attempted to buy stocks, and the market proceeded unsteadily until Washington announced the return of extovernor Lind. This brought a renewal of the advance with the Copper shares strongest. London led in the movement, with prices for Amaignmated and Anaconda well above our market for an hour or so.

A sharp advance in Southern Pacific carried the price up 1½ points, and Union Pacifice rose over 2 points on light trading.

Interboro-Metropolitan preferred sprang into prominence, rising to 63%, and American Can grew active at a substantial advance.

The market broadened about noon with many sharp recoveries in the minor copper and industrial issues. Reading gained 2 points in spite of the announcement that the government would flie a new suit against the company next week.

Steel common made a great display of strength throughout the day and closed practically at the top. Buying of Illinois Central, that had been sold in London at a price equivalent to 187%, advanced the stock to 189 here.

General buoyancy displayed by prices was considered surprising in view of the small amount of public business. It was the opinion on the Street that the short interest had become much larger than most brokers had realized.

The Bank of England made another re-

become much larger than most brokers had realized.

The Bank of England made another remarkable showing for its gold reserve, which yesterday exceeded any week since a similar period in 1896; the ratho of reserve to liability is now at the very unusual figure of 595, fully 19 per cent above the same week last year. The Bank of France added \$5,390,599 gold to its reserve.

Crop news from Kansas and Oklahoma continued to be unfavorable, but this was ignored as a stock market factor.

Little change was noted in the time money market. Foreign lenders are offering over the year funds at 5 per cent. The market for discounts in Berlin and London was a shade lower with indications of further

hade lower with indications of further fferings of funds from foreign lenders

offerings of funds from foreign lenders abroad.

The Canadian banks withdrew \$1,000,000 gold for shipment to Montreal, and the local banks lost heavily again on their operations with the Treasury, over \$10,250,000 having been paid out through this channel since Friday, more than twice the amount lost last week.

The strength and activity in the copper shares is taken to indicate that the movement will be carried further. Buying for foreign accounts was a noticeable feature, and this does not usually run out within the first day or two.

As leaders of the market, Union Pacific and Steel have lost none of their advantages. Steel: Southern Pacific and Union Pacific will sell ex-dividend next week. This makes the prices look cheap to-day.
